I am using Windows 7 32 bits and my Epson TM-U325 printer is working perfectly but I want to know if it is possible to change the name of the printer's name such that it is not case-sensitive, i.e. no caps. What I want is, Instead of TM-U325, it has to be dTM-U325, because on my software, it's showing the whole name, including the letters in capital letters. I have searched extensively on the net, but could not find any resources and help to do this. On Windows 10, I have found that the search function in the Windows 10 device manager is not working for printers on the network. Is there any way I can search for the printer on the network?
